Presenting:

The Case for Being ToxicFree®

Come and be empowered by knowledge and intentional buying decisions that are safe and toxic free for your home & life!!

Come and Learn:

By the end of the evening you will be able to:

-  understand what has changed in our personal environment over the past 100+ years
-  realize why there are 80,000 chemicals in our system of commerce today
-  learn the serious implications they are having on our health & that of our children
-  know how to protect yourself & your family's health
-  know how to easily spot the worst offenders
-  know how to utilize great resources to help you on a daily basis!
